

## UPDATE 2

### Important Notes – Page 16

#### Frozen Vegetables

Frozen vegetables are blanched prior to freezing, and in some facilities chametz items may be blanched in the same equipment. Furthermore, possible chametz or kitniyot chemicals such as anti-foam, anti-oxidants (eg citric acid) may be placed in the blanch water. As such only frozen vegetables that have been investigated may be used.

In contrast IQF plain frozen fruit provided there are no added sweeteners or other ingredients may be used.

#### Salt

Any salt that has no anticaking agent or any salt that the anticaking agent is ingredient 554, and is the only added ingredient is acceptable.

## SECTION 1 – Certified Kosher for Pesach
